

wfk zertifikat

This is to certify to

Miele & Cie. KG
Carl-Miele-Straße 29
33332 Gütersloh

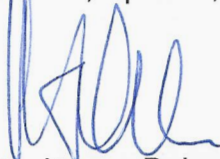

that within an investigation (report MB 6467/13 dated 29th July, 2013)
conducted by wfk-Institut für Angewandte Forschung GmbH

all freshwater dishwashing appliances of the technical approbation type GG06
(confirmation of technology identity dated 20.12.2022) in the "Super Short" 55°C
program fulfilled and even exceeded the requirements of the type test of DIN 10512.
The required germ reduction in accordance with the requirements of DIN 10512 is
5 log₁₀ steps, the average germ reduction achieved in the test was 7.46 log₁₀ steps.

The test was carried out on the PG 8058 U AW freshwater dishwasher. The following
appliance types belong to approbation type GG06: PG 8055, PG 8056, PG 8057 TD,
PG 8058, PG 8059, PG 8060, PG 8061, PG 8096 and PG 8099.

The certificate is valid from 01.01.2022 to 31.12.2022.*

Krefeld, April 05, 2022

Dr. Jürgen Bohnen
CEO

* The validity of the certificate limits the period of wfk's consent to make appropriate and legally permitted use of the certificate by the customer. The results of the investigation, however, are only valid for the investigated samples and their qualities at the time of the investigation, acc. to chapter 2.4, para 1 of the investigation report MB 6467/13.
